

Please read the following in case there way an issue with website not loading correctly

## Images

If image is not loading for index page, please check the path in [style/mobile.css]

```
.index img {  
    -webkit-mask-image: url("/Cantor/icon/splash.png");  
    mask-image: url("/Cantor/icon/splash.png");  
}
```

## Database

Please add database like following

←	Server: localhost »	Database: course »	Table: computer
←	Server: localhost »	Database: course »	Table: design
←	Server: localhost »	Database: course »	Table: form

Please add each database column names as showing in .CVS with following applied

ID	A_I
UCASPoint	NULL
UCASCode	NULL

I have also added phpMyAdmin SQL Dump as requested
